Description

MEN 5148

From award-winning designer Michael E. Nelson comes a stunning addition to our Craftsman Bungalow House Collection. Aberdeen Place is simple yet elegant, inside and out, while keeping the overall square footage under 1800 sq.ft. The Foyer leads you to the large Great Room, which lies below a stunning vaulted ceiling and flows into the Dining space and Kitchen. This open floor plan allows for the perfect space to entertain friends and family. The Kitchen features an abundance of cabinet- and counter space, along with an eat at island with seating for four. From here, you may also access the charming Grilling Porch, making for easy entries and exits when cooking outdoor meals. The left side of Aberdeen Place is occupied by the luxury Master Suite, and the Laundry Room is conveniently located nearby. A gorgeous boxed ceiling accentuates the

grandeur of the master bedroom. No amenity was left out in the Master Bath, coming complete with a double sink vanity, free-standing tub flanked by his and her closets, and separate shower with a bench seat. On the right side of the home, you will find the other two bedrooms for a peaceful split bedroom design. Bedroom 3 is located just behind the kitchen, while Bedroom 3, boasting a walk-in closet and vaulted ceiling, is found at the very front of the home. A hall bath with a dual vanity lies adjacent to Bedroom 2. Need another bedroom or extra living space? Finish out the optional Bonus Room above the garage! This room is perfect for a teenager needing their own space, as it includes a full bath and walk-in closet. How would you customize this amazing house plan?
