Description

This home is styled in the Arts and Crafts era with an updated floor plan. Windows along the front of this lovely home allow natural lighting to dance throughout while adding uniformity. Once inside the foyer, bedrooms on either side are away from the private master suite at the rear of the home. An expansive great room with fireplace is centrally located and opens to a large dining room. The U-shaped kitchen is a step saver and includes a bar counter for serving buffet style. Dining will be fun for the whole family with easy access to the grilling porch. After the kids are in bed, you'll be able to find solitude in your master suite with private bath and 'his and her' walk-in closets. This split bedroom design has all the amenities for today's busy, yet family oriented lifestyle.
