Description

NDG 606

A stunning addition to our Colonial Classical Federal House Collection, Dogwood Avenue emulates tradition at its finest. Wrap-around porches with boxed columns will welcome family and friends with the opportunity to sip lemonade while engaging in outdoor conversation. Inside is a portal into the old times, with a formal living room and dining room, which is accessed from the kitchen through a butler's pantry. An eat-at island merges the great room and fireplace with the kitchen, allowing for a space dedicated to family. Once you've had plenty of quality family time, take the elevator or spiral staircase to the upper-level bedrooms! Your luxury Master Suite occupies the entire rear portion of this floor and opens from a double entry to the spacious master bedroom, complete with a modest closet and gas fireplace. To the left, a large walk-in closet

separates the bedroom from the Master Bath and is conveniently located beside a vanity and makeup station. An additional vanity, a whirlpool tub and separate shower, and a private toilet room make up the rest of this luxurious bath. Also on this level are Bedrooms 2 and 3, allowing for close monitoring of the younger children. While both bedrooms are roughly the same size and each feature a makeup station in their respective private bathrooms, Bedroom 3 enjoys more closet space, a glass shower with a seat, and a large built-in corner desk. The Dogwood Avenue house plan also gives you an option to finish out a huge Bonus Room on the next floor up! Here, 3 dormers on each wall surround the room, and a full bath allows you to use the space for anything you please! How would you customize this amazing house plan?
