Description

MEN 5218

From award-winning designer Michael E. Nelson comes a stunning addition to our Farmhouse House Collection. Four Winds blends traditional farmhouse and country design with modern elements to create the perfect home. The simplistic use of siding with a brick skirt allows the structure of this home to truly shine, and charming dormers compliment welcoming front porch to give you this beautiful design. Vaulted ceilings accentuated by faux beams make for a grand design of a stunning great room. A walk-in pantry and a large eat-at island paired with a cozy breakfast nook make for a luxury kitchen. The master suite of Four Winds features a spacious walk-in closet, and the master bath features luxuries of dual vanities, a free-standing tub, and a glass walk-in shower. Private dual vanities separated from the toilet and tub puts a unique take on

the Jack and Jill bathroom, and a grilling porch below a vaulted ceiling will take your breath away. Upstairs holds a bonus room, and for even more space, you can choose to add a third garage. How would you customize this amazing house plan?
