Description

MEN 5273

From award-winning designer Michael E. Nelson comes a stunning addition to our Craftsman House Collection. Haven Place is a charming two-story home, perfect for a growing family. A large island in the kitchen allows for extra counter space and additional seating during holiday gatherings. An open floor plan gives both the dining room and kitchen a cozy view of the great room fireplace. The upstairs includes a spacious Master Suite with an extra large walk-in closet, two additional bedrooms, and a full bathroom.

Open Floor Design

Haven Place opens up right off of the front porch to a cozy foyer space featuring a beautiful

staircase. Past the staircase and around the corner, you enter straight into the kitchen area, which boasts a large island and spacious walk in pantry. Continue into the great room, showcasing a beautiful fireplace and tons of natural lighting provided by the picture windows. Also enjoying plenty of natural light, the dining space provides ideal entertaining space.

Upper Level Living

Upstairs features a spacious master suite equipped with a large walk-in closet. In addition to the master suite, the upper level is also home to both bedrooms, tons of closet space, the laundry room, and hall bathroom.
