Description

MEN 5190

From award-winning designer Michael E. Nelson comes a stunning addition to our Colonial Classical Federal House Collection. While keeping the traditional breathtaking exterior, Calumet Plantation enhances the appeal of the historical plantation home with modern luxuries. The first floor includes a home library, as well as a great room and breakfast nook, which each enjoy a cozy fireplace. The kitchen features an eat-at island and a wine rack, and a butler's pantry adds additional luxury to the formal dining room. Upstairs holds the master suite of Calumet Plantation, which features a gas fireplace, a massive walk-in closet, and access to the stunning balcony. The master bath adjoins to the laundry room and enjoys luxuries of dual vanities, a claw foot tub, and a

large, glass walk-in shower. This floor also holds both a sitting area and TV area, as well as bedrooms 2 and 3, which share an impressive public bathroom, complete with a walk-in shower and tub. How would you customize this amazing house plan?
