Description

MEN 5325

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. Cottage at Autumn Brooke is the definition of cozy. Two shed dormers atop a sloping roof and the front door tucked under a covered porch complete this aesthetic. A tall gable above the two-car garage is sure to grab any onlooker's attention, but what really finishes off this cottage's beautiful curb appeal is the white framing against vinyl siding. Inside you'll find an open space housing the kitchen, dining room, and great room with a beautiful, vaulted ceiling. The great room opens through French doors to the grilling porch outside, allowing for some relaxation under the sun or stars. On the other end is the laundry room, easily accessible from the kitchen. To the

right of Cottage at Autumn Brooke is the coveted master suite, equipped with a walk-in closet and full master bathroom holding a walk-in shower. Bedroom 2 lies across the hall from the master suite, the perfect place to put your little ones. Bedroom 3 opens from the foyer, enjoying a window that looks out onto the front porch. Bedrooms 2 and 3 also share a bathroom, which is located down the hall from bedroom 2. How would you customize this amazing house plan?
