Description

MEN 5331

From award winning home designer Michael E. Nelson comes a brand new addition to our farmhouse collection, Dogwood Cabin! This rustic take on a classic design offers a cozy 2 bedroom abode with a beautiful outdoor living space under the covered porch offered at the front of the home plan. Wooden accents compliment the siding exterior to give a traditional, but rustic curb appeal to any that are lucky enough to take a gander at Dogwood Cabin.

Open Floor Design

Upon entering Dogwood Cabin, you'll find yourself impressed with the vaulted ceiling complimenting the traditional style fireplace and open kitchen and dining concept. A large eat-at

kitchen island overlooking the dining area and give a perfect view of all the storage space offered in the kitchen cabinets while a pantry resting to the side of the dining room offers plenty of extra storage. A patio exit is offered right off of the dining room while a door to the side of the kitchen give access to the right side of the Dogwood Cabin.

Bedrooms

Two bedrooms rest at the end of the hallway jetting off of the great room of Dogwood Cabin. To the left, you'll find Bedroom 1 that offers a large walk-in closet and private bathroom. With a double vanity and linen closet, this bathroom is perfect for couples sharing the space needing a bit more room. Bedroom 2 rests at the front of Dogwood cabin with great views of the covered front porch. This bedroom also offers it's own bathroom with a single vanity and tons of natural light.
