Description

MEN 5335

From award-winning designer Michael E. Nelson comes the newest addition to our Craftsman House Collection. Woodland Place is a luxury open floor plan that will leave your guests catching their breaths. With an entry porch accented by beautiful wood framing and welcoming double doors, its curb appeal is simply unmatched. Inside you will find a stunning kitchen featuring a center island, a bar table, and two walk-in pantries, separating the massive great room from a cozy breakfast nook. A spacious grilling porch is the perfect place to entertain guests in beautiful weather, as it holds an outdoor kitchen and a grill. This impressive feature is also accessible from the master suite, located at the left of Woodland Place. In addition to his and her walk-in closets, the master suite holds the perfect master bath, complete with a glass walk in shower, a free-

standing tub, dual vanities, and a private toilet room. On the opposite side are 3 extra bedrooms, each adjoined to individual bathrooms. There is also an extra space upstairs, consisting of a bonus room and a full bathroom, along with an extra room that may be used as a game room, or for any other purpose that may suit you and your family. How would you customize this amazing house plan?
