Description

MEN 5358

From award-winning designer Michael E. Nelson comes the newest addition to our Affordable House Collection. Rosewood Cottage is a functional home plan that is sure to fit the needs of your growing family. Vinyl siding paired with stone trim offer a unique take on the traditional curb appeal, and a three-car garage will satisfy all your storage needs. Inside you will find a large open space, shared by the great room, kitchen, breakfast nook, and dining room. The kitchen is located across from the dining room, which tucks into a cozy alcove, and includes an eat-at kitchen island. The breakfast nook cutely lies in the corner, across from an impressive walk-in pantry. From here you may also access the back porch, perfect for lazy nights you want to spend relaxing in nature. To the right of Rosewood Cottage is the spacious master suite, which also holds a small alcove.

Enjoy the two walk-in closets accessible from the master bath, featuring dual vanities, a walk-in shower, and a free-standing tub. On the left side are bedrooms 2 and 3, which share a full bathroom in the hall. How would you customize this amazing house plan?
