Description

MEN 5381

From award-winning designer Michael E. Nelson comes a brand new addition to our Cottage House Plan Collection. Whitewood Cottage pairs classic wood shutters with gorgeous stone accents to create a curb appeal that is sure to turn heads. A spacious great room and dining area open to the kitchen by a large eat-at bar offers tons of gathering opportunity for your growing family. The master suite of Whitewood Cottage offers boxed ceilings, great natural lighting, and tons of space in the master bathroom. Bedrooms 2 and 3, also found on the main level, share a hall bathroom in between, while the 4th bedroom upstairs enjoys its own bathroom and views of the great room below. A large covered porch surrounding the rear of the home makes for a luxury outdoor living space, and a 3-car garage will give you all the space you could ask for. How would

you customize this amazing house plan?
