Description

MEN 5390

From award-winning designer Michael E. Nelson comes the newest addition to our Craftsman Bungalow House Collection. Stone accents and classic shutters give Cody Creek Place the curb appeal you've always wanted. Welcomed by the foyer, you will see an open great room and kitchen, separated by an eat-at center island and accented by a stunning timber beamed ceiling. From here you may also access the formal dining room with a vaulted ceiling, as well as a screened porch, perfect for gathering with family and friends. The right side of Cody Creek Place holds the massive master suite, fully equipped with a spacious walk-in closet and a luxury master bath, which enjoys dual vanities, a free-standing tub, and a walk-in glass shower. On the left side,

you will find bedrooms 2 and 3, each equipped with walk-in closets and access to a Jack and Jill bathroom. To top it all off, this house plan features two garages, one of which holds a storage closet, and a bonus room upstairs. How would you customize this amazing house plan?
