Description

MEN 5356

From award-winning designer Michael E. Nelson comes the newest addition to our Cottage House Collection. Summer Cottage is the perfect place to get away. Craftsman elements of stone and wood framing offer a unique take on the classic cottage look, and together they create tons of curb appeal. Entry takes you straight into the kitchen, equipped with lots of counterspace and an eat-at island. This space is shared with the dining and great rooms, and a vaulted ceiling and masonry fireplace make it absolutely breathtaking. To the left of Summer Cottage you will find the master suite, complete with a spacious walk-in closet and full master bath, which features a walk-in shower, a free-standing tub, and two separate vanities. Down the hall is bedroom 2, which enjoys private access to a bathroom accessible from the hallway. The laundry room is equipped with

counterspace and a sink, as well as a shower for your pets. An outdoor living space, accessible from the great room and master suite, offer a pleasant gathering place, and a stunning carport shelters your vehicles while also contributing to curb appeal. How would you customize this amazing house plan?
