Description

MEN 5394

From award-winning designer Michael E. Nelson comes the newest addition to our Farmhouse House Collection. Whisperwind Acres first catches the eye with a unique curb appeal of a wrap-around porch and two double-door entries. Inside is a spacious great room holding a stone fireplace, and a massive eat-at bar lies in the center of an open kitchen. The master suite may be accessed by the second point of entry to Whisperwind Acres and features a second cozy fireplace. Two walk-in closets separate the suite from the luxury master bath, which brags of a large walk-in shower, dual vanities, and a private toilet room. At the rear of the home bedroom 2 is big enough to double as a bunk room, and bedroom 3 can easily be utilized as a study, if you need. A full

bathroom is located across the hall with a walk-in shower, and the laundry room, featuring a pet shower, toilet, and sink, adjoins to a hallway which opens to a 3-car garage, complete with an extra storage space. To top it all off, the upper level holds a massive game room, along with a full bathroom. How would you customize this amazing house plan?
