Description

MEN 5402

From award-winning designer Michael E. Nelson comes the newest addition to our Rustic House Collection. Misty Mountain Retreat's wood exterior and stone trim creates a curb appeal that is sure to leave onlookers at peace. Inside you will find an open space, shared by the great room and kitchen, below a breathtaking vaulted ceiling decorated with timber beams. The kitchen is a luxury itself, complete with a large, L-shaped eat-at island, a walk-in pantry, and a cozy breakfast nook beside it. To the left of Misty Mountain Retreat is the master suite, which enjoys access to the massive outdoor living space, accentuated by a vaulted ceiling. The master bath, however, is the real gem, featuring a free-standing tub, dual vanities, a walk-in shower, and a spacious walk-in closet. The opposite side holds bedrooms 2 and 3, which share a Jack and Jill bathroom. A study

and a half bath are convenient additions to this home, and above the 4-car garage, you will find two bonus rooms suitable to meet any of your needs. How would you customize this amazing house plan?
