Description

MEN 5109

From award-winning designer Michael E. Nelson comes the newest addition to our Traditional House Collection. Wisteria Place will satisfy your family's needs with both function and luxury. A brick exterior pairs well with wood shutters and garage doors, and a cozy entry porch adds to this gorgeous curb appeal. Inside you will find a stunning great room with coffered ceilings, located in the same space as the dining area and kitchen, complete with an eat-at island and walk-in pantry. The left side of Wisteria Place holds the luxury master suite, which enjoys a secondary access to the screened porch. Dual vanities, a glass walk-in shower, and a private toilet room make for the perfect master bath but what will really blow you away is the massive walk-in closet, which you may access from the bathroom or directly from the suite. Bedrooms 2 and 3 are located on the

right side and share a bathroom down the hall. A 2-car garage offers so much storage space, and a bonus room is also featured to suit any additional needs. How would you customize this amazing house plan?
