Description

NDG 1193

The newest addition to our American Woodlands House Collection, Trout Run Retreat showcases a blend of shake and board and batten siding with stone accents throughout, making for a gorgeously diverse exterior. Stepping inside, you will find yourself in a brief Foyer, partially open to the formal Dining Room to the left, each boasting a stunning 10-foot ceiling. The open floor plan beckons you farther into the home, where the spacious Great Room with a cozy fireplace serves as the perfect family gathering place. A vaulted ceiling decorated with timber beams continues into the Screened Porch just outside, which also features a corner fireplace, making this outdoor space perfect for all kinds of weather! The large center island with seating for 7 separates the Kitchen from the Great Room, and its featured sink and dishwasher face the Great Room, so the chore of

cleaning and meal prep will never be secluded from the festivities! Tucked away in its own little space adjacent to the Screened Porch is the cozy Breakfast Room, where transom windows on two sides will allow you to enjoy the view of nature while sipping your morning coffee.

The left wing of Trout Run Retreat houses the luxurious Master Suite, where a huge bedroom with an intricate vaulted ceiling leads way to the Master Bath through charming barn doors. Here, you will enjoy double sinks, a corner shower and free-standing tub, and an enormous walk-in closet with access to the Laundry Room. This Laundry Room is located just outside the Mudroom, which serves as entry to the 2-car garage and leads into a hallway with designated space for storage bins and a bench with hanging storage. On the right side of Trout Run Retreat, Bedroom 2 enjoys front-facing windows with space that would be perfect for a window seat. A Jack and Jill style bath leads you into the Study, and just outside you will find a staircase to the basement below. These stairs will take you into the Game Room/Den, perfect for entertaining or even just family game night. Bedroom 3 is perfect for a teenager or two children, with a ton of space, a huge walk-in closet, and private access to the full bath. A Storage/Hobby Room is available for anything you please, and the lower Deck is perfect for getting that much-needed vitamin D. The entertaining continues above the garage with an optional Bonus/Media Room! How would you customize this amazing house plan?
