Description

NDG B1055

A stunning addition to our Barna Log House Collection, The Highland has gorgeous curb appeal with a bank of tall bay windows framing a magnificent gable. Stepping inside from the side Deck, you are met by the Dining Room, which is joined with the Great Room and Kitchen by the open floor plan to create one space. The Great Room is home to that tall bank of windows and a cozy fireplace, perfect for the whole family to gather. The Kitchen shares the natural light coming in from the Dining Room windows and enjoys enough space to include a center island if you want! Moving to the rear of the home, you will find Bedrooms 2 and 3, which mirror each other on the right and left sides, respectively. Bedroom 2 lies adjacent to the hall bath, while Bedroom 3 lies adjacent to the Laundry Room. This hallway leads into the 2-car garage, which has tons of space and holds

the mechanical room. Up the stairs of The Highland, you will find a huge Loft open to the Great Room below leading into your luxurious Master Suite. The master bedroom is huge, with a bank of windows allowing for a nice view and great natural light. The walk-in closet opens into a large Attic Space, and the Master Bath is sure to have you relaxing all night. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost. Contact one of our home plan specialists today to discuss modification requirements by emailing
