Description

NDG B1032

A stunning addition to our Barna Log House Collection, The Rockwood features light wood framing dormer gables and a gabled side porch to give guests a warm welcome inside. Upon entry in the Living Room, you will see the cozy fireplace and Dining/Kitchen space, separated from each other by a 6x6 post, as well as an angled eat-at bar counter. Step onto the Gabled Porch to the left to enjoy outdoor meals with great company. The right side of the home leads way to your Master Suite, where you will love all the space the bedroom provides, a walk-in closet, and private Master Bath. Sharing a hallway is the Sunroom/Game Room, the perfect way to add variety to your gathering spaces. It also serves as entry to the 2-car garage and allows you to access the backyard, which makes it a great spot to watch the kids play! Speaking of kids, the upper level of

The Rockwood is sure to house them all. A huge Loft will keep them entertained and can serve as a playroom or space for additional beds. To the right is Bedroom 2, which has tons of space to go around. A private bath has dual vanities, and a large walk-in closet paired with ample closet space provides plenty of space for the kids' wardrobe. How would you customize this amazing house plan?

NOTE: Barna plans are intended for log exterior walls. Converting these to 2X6 exterior walls requires modification and will be subject to additional modification cost. Contact one of our home plan specialists today to discuss modification requirements by emailing
