Description

NDG 1380

A stunning addition to our Angler Mountain House Collection, Cliffs is packed with character, featuring timber beams inside and out and wooden columns on stone bases. Invited inside by a covered front porch, you will find a large Great Room with a vaulted ceiling of timber truss beams and a large fireplace. The Great Room is open to the Kitchen/Dining area, where a large eat-at island bar just ahead of the dining table allows for quality time spent with family and friends.

Accessible from the Great Room and Kitchen, the Outdoor Living Space comes complete with a fireplace that is perfect for hosting gatherings or casual meals. After calling it a night, your overnight guests will be delighted to find their private quarters just off the Foyer. This Guest Room has plenty of space below a beautiful vaulted ceiling, as well as a private bath and walk-in closet.

Also off the Foyer is a convenient half bath and stairs leading down to the basement.

The right wing of the Cliffs house plan is almost entirely occupied by your luxurious Master Suite. The huge master bedroom boasts tons of natural light from a bank of rear-facing windows, as well as private access to the rear Deck. The Master Bath has everything you could ask for, including dual sinks, a glass shower with a seat, whirlpool tub, and large walk-in closet. Downstairs is another Master Suite with roughly the same amenities, perfect for an in-laws suite or space for a teenager. There is also a huge Media/Game Room with a fireplace, another bedroom and bath, and a large Safe Room. An additional outdoor space can also be enjoyed and is accessible from both bedrooms. How would you customize this amazing house plan?
