Description

MEN 5078

From award-winning designer Michael E. Nelson comes a stunning addition to our French Country House Collection. With just under 2000 sq.ft., Crescent Manor is a great choice for your next home. The brick, stone, and stucco exterior gives great street appeal, especially when complimented with the wood shutters and unique dormer above the front door. Stepping into the Foyer, you are led into the open floor plan housing the Great Room and Kitchen below a beautiful vaulted ceiling decorated with faux beams. The Kitchen is complete with a large island with raised bar seating and a walk-in pantry. You'll also notice an attached Dining Area, perfect for family meals, on one side. On the left side of the home are Bedrooms 2, 3, and 4 as well as a hall bath. Bedroom 2 can be used as an Office with an optional barn door opening into the Foyer, if desired.

On the opposite side of Crescent Manor, you will find the spacious Master Suite. The master bedroom features a lovely vaulted ceiling, while the Master Bath offers two separate vanities, a glass shower, free-standing tub, private toilet room, and a large walk-in closet with direct access to the Laundry Room through a pocket door. From here, you can access the kids' nook, which has a bench with hanging storage for easy exits and entries to and from the 2-car garage. An additional garage adjoins to this one and even features a spacious storage closet for anything from gardening tools to outdoor furniture. Speaking of outdoors, take a look at your cozy Grilling Porch, just outside the Great Room, for casual hangouts or summer barbecues! Need more space? Upstairs is an optional Bonus Room and half bath, perfect for an extra space for the kids, or even a hobby or exercise room. How would you customize this amazing house plan?
