Description

We have created this delightful plan to fill the needs of a growing family and provide privacy for the heads of household. Use the formal dining room as a study if a formal setting isn't your cup of tea and invite guests over for a cozy evening of grilling on the rear porch and fireside conversation in the great room. In the morning you can enjoy coffee and the paper in the breakfast room adjoining a well-designed kitchen. At the end of a long day, retreat to your master suite with a nine-foot boxed ceiling and a private bath containing his and her closets, private toilet area and double vanities. On the other side of the home are two spacious bedrooms and a full bath allowing teens and guests their own private space.
