Description

Believe it or not, this gorgeous home created by Nelson Design Group has five bedrooms and five baths. The arched entry and windows are outlined with an architectural pre-cast stone element. The dining room and study bay windows are both accented with a stylish copper roof that will superbly season overtime. A grand foyer with curved staircase sets the tone for this magnificent home design. The heart of this home is the expansive kitchen with adjoining gathering room, breakfast room and screened porch. Located privately on the main level is the master suite with an extraordinary private bathroom with fireplace and tornado room/master closet. Whether you desire a nearby nursery for the precious addition to your family, or a home office you'll have a world of options with this design. The upper level includes three bedrooms, an optional bonus room and plenty of bathroom access.
