Description

This sprawling Nelson Design Group home exudes elegance. Only columns divide the dining and great rooms, creating an open feeling throughout. A screened porch off of the breakfast room lets you enjoy nature without the added distraction of insects. The study includes loads of bookshelf space and French door access to the amenity-filled master suite. A spiral staircase in the foyer leads to the lower floor of this home. While downstairs, the kids are sure to enjoy the privacy of their own bedrooms as well as the inclusion of a game room. An optional home theater and plenty of storage complete this design.
