Description

MEN 5052

From award-winning designer Michael E. Nelson comes a stunning addition to our Craftsman Bungalow House Collection. Beautiful traditional design is complimented by rustic touches in Hampshire Heights. Stepping into the foyer you will be led into the open living space shared by the great room and kitchen. The kitchen displays a large island as well as a coffee bar and walk-in pantry. Privately tucked away in the back right corner is the large master suite, complete with a walk-in closet and a spacious master bath, which includes a whirlpool tub, walk-in shower, and drawers for your convenience. On this side of Hampshire Heights, you will also find the laundry room, as well as a half bath for guests. On the left side of the home are Bedrooms 2,3 and 4, each with a walk in closet, and a hall bath with private access from Bedroom 4. Above the 3-car garage

is an optional bonus room with its own walk-in closet and full bath. You certainly can't forget about the Outdoor Living area, complete with an outdoor kitchen and fireplace. How would you customize this amazing house plan?
