Description

Cabana House Plan

Feel the allure of the Mediterranean style with this magnificent Cabana home plan from Nelson Design Group, LLC. From its steep roof lines, down to each column on the porch area, the home oozes hospitality and friendliness. The lovely porte-cochère, with its massive stone columns serves as a dramatic prelude, welcoming guests for parking and pick-up/drop-off while protecting them from the elements.

Once you get into the foyer, you'll be awed by the ambiance and serenity of the massive great room. A vaulted ceiling, sky windows and a glowing front entry blend perfectly with the high-pitched roof lines. The fireplace in the great room features built-ins on either side and warms the kitchen and dining room.

The Cabana kitchen has a large walk-in pantry, massive cabinets and huge counters that overlook the dining room and breakfast area. Entertaining is made easy thanks to the eat-at wet bar and island prep bar at the corner. The kitchen also provides easy access to the dining area and great room.

The master suite features cathedral ceilings, a private deck and a sitting area. Ultimate indulgence awaits you in the bathroom, which has a glass shower with a seat, an enormous walk-in closet and double vanities.

A second bedroom opposite the master suite features a full bath and also has cathedral ceilings. Downstairs, you'll find two other bedrooms with their own walk-in closets and full baths. There is also a convenient laundry room and lots of storage space.

The theater/game room completes the other side of the Cabana plan. Family and friends are sure to enjoy the fireplace and mini-kitchen at the game room.

Here is a perfect contemporary home that offers an ideal rocking chair back porch and an easy-flow open plan. It covers 4,831 square feet of living space and has four bedrooms and four full baths.
