Description

This is historically representative of a home that our parents grew up in. This home has recreated a traditional design with modern amenities. The covered porch welcomes visitors like outstretched open arms. Upon entering the foyer, a formal dining room is on your left and accesses a breakfast nook through to the kitchen. An angled bar area opens into a great room with media center and built-ins. The large master bathroom has a walk-in closet, corner whirlpool tub, separate shower, and separates the Master suite from the other bedrooms for added privacy. A sitting area in the master bedroom can be used as a study area. A kid's nook is creatively added to help organize a busy lifestyle and accesses a garage which is recessed for added street appeal.
