Description

MEN 5041

From award-winning designer Michael E. Nelson comes a stunning addition to our European House Collection. A chic contrast of light brick and dark trim and shutters gives Bellington Manor so much curb appeal, and its split bedroom focus offers an added privacy to the master suite. A grand hall separates the foyer from the great room below a breathtaking vaulted ceiling. An open layout and walk-in pantry make for the perfect kitchen, and an eat-at island and cozy breakfast nook makes hosting easy. A completely screened porch leading to a separate grilling porch encourages outdoor parties and family gatherings. The luxurious master suite occupies the right side of Bellington Manor, including a massive walk-in closet with access to the laundry room, a free-standing tub, double vanities, and a walk-in shower. Bedrooms 2 and 3 are located on the

opposite side and share a bathroom in the hall. A bonus area is also featured on the upper level, and a 4-car garage offers more storage space than you can imagine. Bellington Manor is lush with natural lighting and windows throughout. How would you customize this amazing house plan?
